

**Harvey Mudd College  
Spring 2012  
Seminar Series**

Tuesday, January 17, 11 am  
Galileo Pryne  
Dr. Katherine Van Heuvelen  
Research Seminar: "The  
Complexities of Counting Electrons:  
One-Electron Oxidation of an  
Oxoiron(IV) Species"

Tuesday, January 24, 11 am  
Galileo Pryne  
Prof. Kimberly Prather, UCSD  
Research Focus: Atmospheric  
Chemistry

Tuesday, January 31, 11 am  
Galileo Pryne  
Prof. Adam Urbach,  
Trinity University, TX  
Research Seminar: "Artificial  
receptors for peptides and proteins"

Tuesday, February 21, 11 am  
Galileo Pryne  
Alex Spokoyny, Northwestern  
Research focus: Materials Chemistry

Tuesday, February 28, 11 am  
Galileo Pryne  
Karen Morrison (HMC '08),  
University of Illinois  
Research focus:  
medicinal/bioorganic chemistry

Tuesday, March 6, 11 am  
(hosted by Pomona)  
Dan Siehl, Dupont  
Research focus: Agricultural  
chemistry/bioengineering

Tuesday, March 13, 11 am  
(hosted by Keck Science Dept)  
Prof. Dustin Maly,  
University of Washington  
Research focus: biological  
chemistry/catalysis

Tuesday, April 3, 11 am  
(hosted by Pomona)  
Prof. Andrew Udit, Occidental  
Research focus: electrochemistry

Tuesday, April 10, 11 am  
(hosted by Keck Science Dept)  
Prof. Paula Diaconescu, UCLA  
Research focus: inorganic chemistry

Tuesday, April 17, 11 am  
(hosted by Pomona)  
Prof. Tim Steimle, ASU  
Research focus: physical chemistry
