

How to Report an Emergency, Injury, or Illness:

- Call ext. 72000 or ext. 18170 from any campus phone.
- From an off-campus or mobile phone call (909) 607-2000 or (909) 621-8170.

If you wish to call 911, remember to enter a “9” first to get an outside line (9-9-1-1) from a campus phone and be prepared to provide detailed information about your exact location and building address to a dispatcher. When you call 9-9-1-1 from a campus phone the emergency dispatcher does not see or receive your location information as they would if you called from a residential phone. It is further recommended if you chose to call 911 first that you immediately follow-up with a call to Campus Safety to inform them of the situation as well.
