**Director’s Statement**

The academic year 2015–2016 was another exciting year for the Office of Career Services and for me as well.

In August 2015, I was able to hire Assistant Director Paul Hardister on a temporary basis. Paul has been a Claremont College colleague of mine for years. He formerly served in Claremont Graduate University’s Career Management Office, initially as the assistant director and eventually the director. It was great to hire someone with Paul’s experience and educational background to join our team. Paul was a math major as an undergraduate at the University of North Carolina at Chapel Hill and he received his MBA from George Washington University. He became a permanent hire in January 2016.

As the fall semester began, I was pleasantly surprised to discover that my proposal to present on our new program “Beyond the Bubble: Life After HMC” (BTB for short) was accepted by the Mountain Pacific Association of Colleges and Employers conference. It was wonderful presenting at the Disneyland Hotel. This was a great launch for our fall semester of BTB seminars, and the enthusiasm continued through the spring semester. Many of the seminars were designed based on student feedback. For example, we had seminars with professionals talking about careers in biomedical/biotech, sustainable energy, and alumni discussing their careers in non-STEM fields.

In addition to the BTB seminars, MUDD on the Road and our many employer events, we made a major change to our fall career fair. We moved to a two-day event, held Oct. 8–Oct. 9. It was quite an undertaking for my small but mighty staff, led by the capable Elizabeth Saelzler. We moved to the two-day format in response to the students who said it was just too overwhelming to have so many recruiters in a small, tight space. The change was well received, with very positive survey results. We had 101 companies between the two days with 1,288 students in attendance (across all Claremont Colleges). In spring, there were 61 employers and 514 attendees.

For the second year, the OCS at HMC was ranked #1 by Princeton Review for job placement, and interestingly, the reporter cited that we had the “most robust career fairs for a campus our size.”

Again this year we increased our drop-in hours. It seems that having available hours every day that students can just stop by for quick questions is something that works well at Mudd. Thus, Monday through Friday we had at least two hours each day for drop in. We doubled those served from 209 to 406. Another area where we saw a huge increase was the number of students participating in on-campus interviews. It jumped from 290 the previous year to 717 this year.

During the spring semester, the OCS staff started to transition to a new, better career management system called Handshake. This will replace ClaremontConnect. We will maintain our collaborative arrangement with the other Claremont colleges to share job and internship listings as well as events through Handshake.

The data in this report is based on July 2015 to May 15, 2016, instead of through June 30, 2016. We ended the reporting early to prep for the new system.

This report includes information about the annual activity in the career center as well as the results for the senior exit survey.

I want to thank my team—Paul, Elizabeth and Jonie—for all their hard work and dedication to the students and employers. Also, thanks to our new Dean/VP of Student Affairs Jon Jacobsen, and the whole team in DSA for supporting our programs. I’m deeply grateful to President Maria Klawe who helped cultivate new employer relationships and also to faculty members who participated in our BTB seminars and attended the fairs. Thanks also to all staff in dining services, facilities and maintenance, and communications and marketing. HMC is definitely a great institution, and I’m very lucky to serve the Mudd community.

Programs

Alumni Career Forum

41 students and 37 alumni participated in the Alumni Career Forum, co-sponsored with the Office of Alumni and Parent Relations.

Mudd on the Road

19 students attended the Northrop Grumman trip.
13 students attended the Aerospace Corporation trip.

Social Business Dinner

64 students attended. Table hosts included 11 alumni and 10 employer partners from organizations such as:

- The Aerospace Corporation
- CIT Bank
- Google
- Liferay
- Laser App Software
- Nordstromrack.com | HauteLook
- Northrop Grumman

820 students attended Beyond the Bubble: Life After HMC seminars
92 percent of students who attended were from HMC.

Seminars Offered in Fall and Spring

- ABC’s of Grad School Apps (2 sessions)
- Finding Internships: Tips From Your Peers
- Finding Summer Research at Mudd & Beyond (2 sessions)
- How to Fund A Startup
- International Students: Get Ready for Job Search--Applications to Interviews
- International Students: Get Ready for the Fair!
- Life Beyond Mudd: Conversations with Alumni
- Making the Most of the Career Fair (2 sessions)
- Mastering the Technical Interview
- Mudders Working in Non-STEM Careers
- Muddworking: Connecting with Alumni Throughout Your Mudd Experience
- Paying Back Federal Student Loans
- Real Talk with Alumni of Color
- Salary Negotiations
- Understanding the Ins & Outs of Your Employment Contract
- Using LinkedIn for Job Search
- What Can You Do With Your Major? Faculty Insights
- Women Working in STEM: Overcoming Challenges
- Work/Life Balance
- Working in Academia vs. Industry
Beyond the Bubble (BTB) Survey Results

We had a **78 percent** response rate to our fall exit surveys.

- **97%** learned something new at the seminars
- **97%** intend to use what they learned
- **95%** had a better understanding of the topics presented after attending the seminars
- **96%** found the information relevant
- **95%** felt the presenters covered the topics well

We had a **91 percent** response rate to our spring surveys.*

- **96%** had a better understanding of the topics presented at the end of the session
- **98%** found the programs useful
- **98%** said the presenters did a good job of presenting the material

*BTB survey questions changed in spring.
