

### Safety Rail for Loft or Bunk Bed

At HMC, every student is provided with a bed, mattress, dresser, closet, desk, and desk chair. Some rooms have bookshelves, while others may have a cushy chair as well. Any other furniture for the room is up to the individual.

Many of the College beds are designed to be lofted or bunked. If you find you would like a safety rail similar to the rails shown below please submit a work order to request one be installed on your bed.

### Sample Safety Rails (type of rail may vary depending on the style of bed)
