OHW PRESENTS

WELLNESS POP IN'S

A little bit of Wellness for your week

COMMUNITY RESOURCE: 2-1-1

2-1-1 is the most comprehensive source of locally curated social services information in the United States and most of Canada. Contacting 2-1-1 LA is free, confidential, and accessible in 140 languages. For every contact, 2-1-1 assesses a client’s needs, asks questions and anticipates things they may not even be aware are needed or available. Then they provide the best referrals from an up-to-date resource database of over 50,000 services. They help connect individuals with services and resources in the following areas: housing, transportation, health care, mental health, crisis services, substance use disorder, domestic violence, LGBT and legal assistance.

CHALLENGE OF THE WEEK:

STAYING ACTIVE IN A VIRTUAL WORLD

STRETCH AT LEAST ONCE PER HOUR WHILE AT YOUR DESK FOR EXTENDED PERIODS OF TIME

USE THE HASHTAG #HMCWEEKLYCHALLENGE OR POST ON THE MUDD APP TO SHARE THAT YOU'RE TAKING THE CHALLENGE AND CONNECT WITH OTHER HMC STUDENTS

Working at a computer often involves very little movement and changes in body positions. Lack of movement can lead to muscle pain and strain. Places that can build up a lot of tension include: neck, shoulders, hands, forearms and back.

Taking a few minutes every hour to stretch can be a great way to clear your head and can also prevent fatigue of the body and mind. It can be a mood enhancer, improve your circulation, better your posture, and increase your productivity.

Although at first it may seem counterintuitive to take a break to improve your workflow and productivity, taking 10 minutes every hour can help you shed off some of your stress, get your blood pumping and allow you to come back to your work with a clear mind.
**Poetry of the Week**

Each week we will feature a poem/spoken word of the week that is chosen by Inci. If there is a poem/spoken word you would like featured, please email ianali@g.hmc.edu to have it featured in a future pop-in. Check out this week’s poetry spotlight, a work called "The Pursuit of Happiness" by YesReneau. It highlights the different types of happiness and what pursuing it means.

**Writing Prompt of the Week**

Turn on some quiet instrumental music and free write for 5-10 minutes about what "happiness" means to you. Then think about in what ways you pursue happiness in your life (what methods do you use and/or actions do you take)? What factors influence your pursuit of happiness and can you change any of them? Write down your answers and see if you can write poetry during your brainstorm. If you would like to share your work, you can email Inci at ianali@g.hmc.edu and your work could be featured in the next issue!

**Cooking Time with Toty**

Join Toty for weekly videos showcasing how to cook healthy meals and snacks! Each week she will include a new recipe for you to follow along. During the video, she will show you common healthy substitutions for various components of the recipe. She will also be highlighting some of your recipes, so if you have any recipes you would like Toty to try, send them to tcalvopolanco@g.hmc.edu.
Virtual Wellness Classes

ALL CLASSES WILL BE HOSTED LIVE ON YOUTUBE
CLICK HERE FOR THE HMC WELLNESS CHANNEL

MEDITATION MONDAYS WITH DEAN MICHELLE
Time: 11am PST
Description: Start your week off with a guided meditation practice by Dean Michelle
