

Writing Requirement: Each student must take at least one HSA course that assigns significant writing (defined as at least 5000 words of formal graded writing, excluding exams, informal reading responses, emails, Sakai posts, in-class writing, and other informal mini-assignments). *Use a W to mark courses that meet the writing requirement.*

Departmental Requirement: The Department requires that at least five of a student's HSA courses beyond HSA10 be taken with departmental faculty. This requirement is reduced for students who study abroad or for students whose concentrations are not regularly supported by coursework at HMC. *Use asterisks to mark courses (other than HSA10) taken with departmental faculty.*

Final Word: The final word on your HSA curriculum rests with your advisor and the HSA Advising Handbook. The handbook is available on the HSA homepage, along with a curriculum FAQ and a complete list of approved concentrations.
