HomeScreen Overview

Logging On
When you start the Kronos Mobile app, your device connects to your organization’s Workforce Central server, using an IP address you supply. You can then log on using your existing Workforce Central credentials.

Alerts
If there are matters requiring your attention, they will appear as alerts. Tap the Alerts icon to view all of your alerts.

Tasks
Simply tap a task to drill down and view its details. Scroll down to access more tasks. Depending on your role, some tasks may not be accessible.

Offline Mode
If you cannot connect to your server, tap here to enter Offline mode. Any edits you make will upload the next time you are online.

GET THE APP
 Anyone can download and try out the Kronos Mobile app – check your device’s app store to get it. To log on to your organization’s server, however, you must be granted access.

Refresh
Tap to update the screen with the latest data from the server. It’s a good idea to refresh after making edits.

Context
Tap to change the Time Period you are viewing. All information you view will be in this context until you change it.

Location
Tap to view your current geographical location, and assign it a context (HyperFind and Time Period). In future, that context will be used whenever you are in the location.
