

2007 Harvey Mudd College Mathematics Conference on

PUBLIC SECTOR OPERATIONS RESEARCH

Friday–Saturday, September 28–29, 2007 ■ Harvey Mudd College, Claremont, Calif.

OPENING TALK ■ FRIDAY, SEPTEMBER 28, 7:00 P.M.

■ **ARNOLD BARNETT**

Massachusetts Institute of Technology

“Is It Really Safe to Fly?”

SATURDAY, SEPTEMBER 29, 9:00 A.M.–5:00 P.M.

■ **MARGARET L. BRANDEAU**

Stanford University

“OR and Public Health: A Little Help Can Go A Long Way”

■ **RICHARD C. LARSON**

Massachusetts Institute of Technology

“Designing and Managing Critical Infrastructures
at the Intersection of Engineering/OR, Management and Social Sciences”

■ **EVA K. LEE**

Georgia Institute of Technology

“Modeling and Optimizing the Public Health Infrastructure for Emergency
Response to Bioterror Attacks and Infectious Disease Outbreaks”

■ **STEPHANIE SNYDER**

USDA Forest Service

“Applying Operations Research Tools to Important Public Sector Problems in
Forestry and Habitat Conservation”

The Department of Mathematics at Harvey Mudd College will host its ninth annual Mathematics Conference on Saturday, September 29, 2007 with a special guest speaker Friday, September 28. Keynote speakers will discuss current and future applications of operations research in the public sector. Faculty, postdoctoral fellows and students are invited to attend. For information about this conference including a schedule, abstracts of the talks and poster session, travel support for students and recent doctorate recipients, online registration and directions, please view the conference web page at www.math.hmc.edu/baldyconf/, or contact the conference organizer Prof. Susan Martonosi at martonosi@math.hmc.edu. Harvey Mudd College is the coeducational liberal arts college of science, mathematics and engineering located approximately 35 miles east of central Los Angeles, in the foothills of the San Gabriel Mtns.
