ANNOTATION: Bringhurst is, of course, a veritable god among typographers. His insights are far beyond those of mortal typographers, allowing us, the readers, to glimpse the true paradise available to those who ardently pursue typesetting as an art, a career, an avocation.

KEY: TUG:hl

ANNOTATION: This article is one of the most useful to have ever been published. Unlike many articles, this one concentrates on the facts—what's really so, rather than muddling the waters with the author's interpretations.
