Harvey Mudd College policy (refer to HMC Catalogue ’10-’11): After the first semester of the freshman year, a student may select one course or the equivalent of 3 units (in addition to courses graded only on a P/F/NC standard) each semester for which he/she will receive a grade of P (Pass) or F (Fail). However, none of the technical core requirements may be taken on a pass/fail basis (except by departmental approval). In addition, departments may establish regulations about which of the courses required for the major may be taken on pass/fail. Not more than one course (or the equivalent of 3 units) each academic year from among any one department’s course offerings may be requested for a pass/fail grade. No more than one HSA course may be taken pass/fail during a given academic year. The request for a pass/fail course or change to letter grades cannot be made after the last day for dropping from a course without SSC permission. A pass/fail course is omitted in computing grade averages unless the grade is “F”. The grade “Pass” is equivalent to C- or better in a course regularly graded. A course with a grade of “Pass” may not be transferable to another school due to the lower grade limit of C-.

Note: A course taken to fulfill the IE graduation requirement or the First-year HSS elective may not be taken Pass/Fail.
